## primary care conference 2005

S&T Medical Services and Richmond Medical Agency exhibited at this year's Primary Care 2005 Conference which was held at Birmingham's NEC.

There were over 4,000 delegates who attended the event and their professions ranged from midwives and dieticians to GPs and Emergency Care Practitioners. Our stand was extremely busy throughout the 2-day event and details were collected and registered from a large number of attendees.

With a prize draw offering £250, a never-ending bowl of branded fruity humbugs and a strategic position right next to the fashion show, we ensured that our stand had a constant flow of traffic from interested delegates in the primary care sector.

So far 100% of registered delegates have been contacted by our recruitment consultants and we have already begun to place many of the GP Locums who registered, as well as filling bookings from the new surgeries and primary care trusts who spoke to us at the event.

For further details on GP Locum requirements please call S&T Medical Services on **01784 422 307** and for Hospital Locum Doctors, please call Richmond Medical Agency on **01784 422 300**.

## charity work

Following on from last issue's charity update, Richmond Medical Agency has sponsored a further three children in Bolivia, Indonesia and Kenya through Plan UK. Each child will have a pen pal who works in our office and three teams have been set up to keep in contact with the children exchanging stories of life in England with news from their villages. We hope that the money we donate each month will help to improve their quality of life and bring lasting improvements to the children, their families and the communities who are struggling against poverty.
